Revision 1.0 | Template | Enter / verify against the active customer and job record

PAGE 2 OF 2

1. TRAINING TOPICS COVERED

- | | | |
|---|---|---|
| ☐ Written hazard communication program | ☐ Labels / workplace labels | ☐ SDS format / access |
| ☐ Hazard recognition / symptoms | ☐ Controls / PPE / safe work | ☐ Emergency / spill response |
| ☐ When new chemical hazards are introduced | ☐ Non-routine tasks / unlabeled lines / containers | |

2. WORKER CONFIRMATION

I acknowledge that I received information and training applicable to my work area and the hazardous products identified on the associated record. I know where to obtain the current SDS and applicable workplace hazard communication information, understand the site rules for labels, handling, storage, PPE and emergency actions, and will ask for clarification before performing work I do not understand.

- | | |
|---|--|
| ☐ Worker had an opportunity to ask questions | ☐ Trainer verified required topics were addressed |
|---|--|

RESTRICTIONS / FOLLOW-UP TRAINING / SITE-SPECIFIC NOTES

WORKER NAME	TRAINER / SUPERVISOR	TRAINER NAME REVIEWER
SIGNATURE / E-SIGN	SIGNATURE / E-SIGN	SIGNATURE / E-SIGN
DATE / TIME	DATE / TIME	DATE / TIME

4. JURISDICTION / PROGRAM REFERENCE

- | | | |
|---|---------------------------------------|--|
| ☐ US OSHA HazCom | ☐ Canada WHMIS | ☐ Site-specific / other |
|---|---------------------------------------|--|

GOVERNING PROGRAM / POLICY REF

SDS REPOSITORY / DOCUMENT ID

Regulatory note: OSHA HazCom requires labels, SDSs and employee information/training for covered workplace chemicals; WHMIS likewise includes hazard classification, labelling, SDSs and worker education. Use the governing rule and employer program for the actual workplace. See OSHA 29 CFR 1910.1200 and Government of Canada WHMIS guidance.
