

NORM Survey & Handling Record

LeaseOS template for documenting survey conditions, instrument readings, material characterization, controls, personnel, and disposition of potentially NORM-impacted material.

Site / Material Identification

Company / operator	
Lease / well / facility	
Material description	
Material source / process	
Container / load ID	
Survey date / time	

Survey Equipment & Personnel

Surveyor name / qualification	
Instrument manufacturer / model	
Instrument serial number	
Calibration date / due date	
Background reading	
Units	

Radiological Survey

Survey location / points	
Direct reading(s)	
Removable contamination / wipe result, if applicable	
Maximum reading	
Measurement units	
Survey map / photo reference	

Material Classification & Controls

NORM determination / status	
Applicable state / federal criteria referenced	

Controlled area / exclusion zone established?	_____
PPE / handling controls	_____
Packaging / labeling	_____
Exposure / dose controls	_____

Disposition / Transfer

Disposition decision	_____
Receiving facility / processor	_____
Transfer / manifest / ticket number	_____
Transporter	_____
Date shipped	_____
Final disposition evidence	_____

Review & Sign-off

Radiation safety / qualified reviewer	_____
Review date	_____
Exceptions / corrective actions	_____
Attachments / laboratory reports	_____
Record retention location	_____

Template note: NORM requirements and release, handling, transport, and disposal criteria are jurisdiction- and material-specific. This form records observations and decisions; it does not establish a regulatory release limit or certify material as non-radioactive.
